Passionate about web development, UI / UX, gaming, branding, publication, and anything related to the arts.

WEB DEVELOPMENT SKILLS

JavaScript | HTML | CSS/SCSS | Node.js | React | Redux | Express | Sequelize | PostgreSQL | git | APIs

ADOBE SKILLS

Photoshop | InDesign | Illustrator | XD | After Effects | Premiere Pro | Procreate

PROJECTS

New Tab Extension | Developer | Designer | [Code](#) | [Demo](#) 8/2022

A Chrome Extension that replaces the new tab page with multiple backgrounds, weather information, and a notepad.

- User notes persist through tabs and windows, and a custom background can be applied along with a choice between a light or dark mode theme.
- Built using **JavaScript** and **React**, with icons sourced from **MUI**.

weather - s.c. | Developer | Designer | [Code](#) | [Demo](#) 7/2022

A weather app formatted for desktop and mobile where users can track current and future forecasts based on their location, as well as information about the sun and moon.

- User location tracking done through JavaScript's Geolocation API and Permissions API.
- Created using **JavaScript**, **React**, **Node.js**, and **Express**, with weather information obtained through **OpenWeatherAPI**.

git status | Developer | Designer | [Code](#) | [Demo](#) | [Video](#) 3/2022

A website where a user can login with their GitHub account and view their account statistics for their profile, contributions, repositories, and also have a task management board for organization.

- A data visualization app developed using **GitHub API**, **JavaScript**, **React**, **Firebase**, **Chart.js**, and **Bootstrap**.
- Designed and created wireframes before development and applied CSS and Chart.js visuals.
- Utilized Firebase to setup GitHub login authentication and Firestore for database storage.

iHOPIe | Developer | Designer | [Code](#) | [Demo](#) 3/2022

A shopping website users can create an account, browse products, add items to their shopping cart, and checkout.

- Wireframed the layout of the website before development and implemented all CSS.
 - Setup authentication with **JWT** and **bcrypt**, with a cart that persists through different users.
 - A CRUD app developed using **JavaScript**, **React-Redux**, **Express**, and **Sequelize**.
-

EXPERIENCE

Freelance Graphic Designer / Illustrator 6/2015 – Present

- Created, developed, and delivered branding materials (logos, banners, posters, books, etc.) and illustrations across a variety of organizations, including *Paid to Proofread*, *Urban Body Fix*, and *Happy Home Senior Center*.
 - Led and involved in processes of product design (such as the digital and print publication of books).
 - Improved UI / UX design and functionality for client websites.
 - Managed multiple projects at a time while still meeting deadlines and keeping in contact with clients regularly.
-
